21st Annual Governor's Advanced Manufacturing & High Technology Summit

NH's Major Networking Event of the Year!

OCTOBER 27, 2023

The Grappone Conference Center • Concord, New Hampshire

JOIN this prime opportunity to gain exposure to over 200 senior executives from manufacturing, representatives from the state, industry and educational organizations.

Sponsor an event table to Meet and Greet attendees from across the state.

The event is hosted by New Hampshire's Manufacturing Extension Partnership (NH MEP) with the goal to network and harness the power of one of the States greatest resources: Manufacturing! The agenda is being developed with three critical topics: CHIPS ACT, WOMEN IN MANUFACTURING & AI. We are in the process of securing industry experts from both the private sector and the Federal Government as Keynote Speakers to address these topics. Learn, ask questions and network to grow your business.

This year's event will reflect the growing importance of American Manufacturing with emphasis on the State of New Hampshire. Sister agencies from both the Federal and State level will feature information, programs, and services to aid and grow your business. Private sector services such as banking, financial management and IT will also be available for discussion.

Thank you Early-Bird Sponsors: M&T Bank, BAE Systems, Eversource, Usource, ASCM, The John Olson Advanced Manufacturing Center, U.S. Small Business Administration, Skylytics Data, LLC., Law Logistics, NH Saves, Neomatrix and PCGIT.
